

ELEVATE YOUR INTEGRATION LAB

ACCELERATE RISK REDUCTION
FOR DEVELOPMENT
ALIGNED TO THE
FACE™ TECHNICAL STANDARD

Your development goals shouldn't be held back by red tape and costly integration equipment.

Get your software team on the right path to developing and deploying components aligned to the FACE™ Technical Standard with **DornerWorks Virtuosity Cloud**.

KICKSTART DEVELOPMENT **LOWER BARRIERS & SCALE YOUR PRODUCTS**

Design products aligned to the FACE™ Technical Standard with **DornerWorks Virtuosity Cloud** on Amazon Web Services (AWS).

OPEN SOURCE **COST EFFECTIVE**

Based on components of DornerWorks Virtuosity OA (Open Architecture) hypervisor distribution, which is certified to the FACE™ Technical Standard.

CONFIDENT **DEVELOPMENT**

Develop products knowing you can **easily transition** to an environment aligned with the FACE™ Technical Standard, like Virtuosity OA.

EASY, CONSISTENT **DEPLOYMENT**

- Prototype, develop, test, and check the conformance of your software in the cloud, **free from the constraints of your own hardware.**
- **Amazon EC2 Instances:** choose your target platform, and deploy

We have come to a point where our software
is something that's destined

NOT JUST FOR A LAB, BUT FOR AN AIRPLANE

Each of you has contributed greatly to this effort, and each
of you should be proud of your contributions.

Thank you for all of your hard work...

Senior Engineer
GE Aviation

You don't have to be an expert in the
FACE™ Technical Standard
to grow your business with
DornerWorks Virtuosity Cloud.

ENABLE SOFTWARE INTEGRATION RIGHT FROM YOUR LAPTOP

If a product launch aligned to the FACE™ Technical Standard is your goal, DornerWorks Virtuosity Cloud provides the launchpad for developing, integrating, and deploying software components using the OSS profile that fits your needs and budget.

Get **DornerWorks Virtuosity Cloud** on AWS
and develop products aligned to the
FACE™ Technical Standard *with confidence.*
